4" Crommelins PTG Diesel Trash Pump

Electric start

4" Crommelins PTG Diesel Trash Pump

The 4" PTG Diesel Trash Pump is a heavy duty low maintenance pump ideal for applications such as Mining and Exploration where diesel fuel is preferred over petrol.

Crommelins has assembled this model with a 9.4hp Subaru diesel engine and pump together as one high quality unit. The trash pumps deep impeller vanes produce the largest discharge capacity incorporated with a large volute discharge opening to pass water containing suspended sticks, stones & debris without clogging or harming pump components. Crommelins have assembled and tested these Diesel Trash Pumps.

Features

- Genuine 9.4hp diesel Subaru engine
- Electric Start (**S**)
- Self priming pump (once pump is initially primed)
- Efficient, economical operation is assured by directly coupled pump. It provides compactness and guarantees that power is not lost.
- Corrosion resistant qualities are prominent by adopting a mechanical seal and impellers of special cast iron.
- Heavy cast iron volute guarantees low maintenance.
- Easy Start
- High Power & Performance
- Great reliability & Durability
- Long life
- Quiet running, with low noise rust resistant mufflers
- Easy maintenance

Model Number	PTG405TDS
Inlet (inch)	4"
Outlet (inch)	4"
Total Head (m)	21m
Volume max. (L/min)	2000L
Volume max. (L/hr)	120,000L
Maximum suction lift (m)	8m
Pump Type	Trash
Suction Type	Self Priming
Impeller	Single
Axle Seal Material (Mechanical Seal)	Silicon-carbide
Engine Make	Subaru
Engine Type	9.4hp DY42
Starting System	Electric Start
Fuel Type	Diesel
Fuel Tank (L)	4.5L
Noise Level (dB @ 7m)	78db
Weight (kg)	95kg
Manufacturers Warranty	2 years
Engine Warranty	3 years

Options

- Recoil start option available
