2in Crommelins Twin Impeller Diesel FF Pump

Electric start

2inch Diesel Fire Fighting Pump Twin Impeller

This is a diesel twin impellor fire fighter pump has 2 inch inlet and outlet to provide large water flow for minesites and where ever diesel powered pumps is the preferred fuel.

Used extensively on boom sprays, wash down points and the Queensland Fire Brigade, this is ideal for fire fighting, water transfer, washing down farm machinery and many other jobs that require water.

The Pump is cast aluminium alloy that comes with a 50mm (2") inlet and outlets and is electric start.

Features

- The cast aluminium impeller/s gives improved life
- Self-priming after initial prime
- Bolt on replaceable suction port so enabling easy and quick replacement if inlet cracked or thread is damaged
- Cast iron diffuser increases pump life and greatly reduces maintenance
- Metal (not plastic) delivery outlet caps
- High quality cast aluminium pump body, for longer life and less maintenance.
- Small and lightweight diesel engine
- High performance and less vibration
- Super reliable, Easy Starting
- 2yr Pump warranty
- 3yr Subaru engine warranty

Applications

- Fire fighting
- Water transfer
- Washing down farm machinery
- Boom Sprays
- Water Sprinkling
- Water Tanks
- Rural Properties
