

Husqvarna K 970

Robust, reliable, light and powerful - the K 970 power cutter is ready to perform when you are. The ultimate choice when you need an all-round cutter performing in the toughest conditions, withstanding climate and fuel variations. Suitable for road works when used with the corresponding KV 970 trolley. The trolley also means you can fully concentrate on the cutting job.

ROBUST AND RELIABLE

Less sensitive to outer conditions and fuel variations, thanks to the cylinder design and muffler with integrated heat deflector.

EASY TO START

The unique design of the carburettor, cylinder and digital ignition system, together with air purge and decompression valve ensure an easy start.

LONG SERVICE INTERVALS

A strong Poly-V belt combined with our maintenance-free starter DuraStarter™ and efficient filter-system Active Air Filtration™ ensures long service intervals.

LESS SLURRY AND LOW WATER CONSUMPTION

Excellent dust control with our wet cutting kit. A progressive water valve for exact adjustment of the water volume to efficiently bind the dust and reduce slurry.

Features Husqvarna K 970

- Light and powerful
- Easy to change bladeguard position
- Fits multiple blade bushings
- The only time the filter needs to be checked and changed is if you experience lack of power.
- High power with less fuel
- Reduced wear thanks to the drive belt with fully sealed transmission, which keeps out the cutting dust.
- Blade retarder
- Our dust-sealed starter, where the return spring and the pulley bearing are sealed, gives a virtually maintenance free starter. Developed with a durable starter cord.
- Our X-Torq® engine produces less emissions, lower fuel consumption and produces more power.
- Possible thanks to the reversible cutting arm
- Our two-step filtration system with centrifugal cleaning and a single paper filter increases product life and extends service intervals.
- Reduced vibrations in the cutter handle for more comfort and longer operation periods.
- Our virtually maintenance free starter, thanks to the dust-sealed starter and the durable starter cord.
- EasyStart ensures easier starting by reducing the compression in the cylinder.
- Provides better transmission of power, less frequent re-tensioning and extended service intervals.
- The drive belt with fully sealed transmission keeps out cutting dust for reduced wear and allows close cutting to walls and floor.
- Our built-in automatic filter compensation maintains high power during the air filter life time.
- Less slurry and low water consumption thanks to the progressive water valve, this adjusts the water volume to the exact amount needed.

TECHNICAL SPECIFICATION

Engine	Air-cooled 2 stroke engine
Cylinder displacement	93,6 cm ³
Power output	4,8 kW
Fuel tank volume	1 lit
Idling speed	2700 rpm
Vibrations front handle	3,9/3,4 m/s ²
Vibrations rear handle	4,2/4,8 m/s ²
Sound pressure level at operators ear	104 dB(A)
Sound power level, guaranteed (LWA)	115 dB(A)
Blade diameter	350/400 mm
Max cutting depth	125/145 mm
Combined bushing diameter	20/25,4 mm
Weight (excl. cutting equipment)	10,9/11,9 kg
